Dear Sir or Madam:

**DISCLAIMER**

The owner, Delphi Technologies, Inc., of 100 percent interest in the instant application hereby disclaims, except as provided below, the terminal part of any patent granted on the instant application, which would extend beyond the expiration date of the full statutory term defined in 35 U.S.C. §§ 154 to 156, and 173, as presently shortened by any terminal disclaimer, of US Patent No. 6,775,581 (Docket No. DP-304140 / DE3-0205).

The owner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and US Patent No. 6,775,581 are commonly owned.

This agreement runs with any patent granted on the instant application, the entire right, title and interest of which is owned by Delphi Technologies, Inc. by virtue of an assignment recorded in the United States Patent and Trademark Office on September 6, 2002, at Reel 013281, Frame 0815, and is binding upon the grantee, its successors, or assigns.

In making the above disclaimer, the owner does not disclaim the terminal part of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. §§ 154 to 156, and 173 of any patent forming the basis of the double patenting rejection(s), namely US Patent No. 6,775,581, as presently shortened by any terminal disclaimer, in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR § 1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any

manner terminated prior to expiration of its full statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title stated above.

The undersigned is empowered to act on behalf of Delphi Technologies, Inc. The undersigned hereby declares that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001 and that such willful false statements may jeopardize the validity of the instant application or any patent issued thereon.

Respectfully submitted,

Patrick M. Griffin  
Assistant Secretary
